Team Meeting 9/8/05

Today we went over our questions for Tony, and we now have a meeting on Friday for 2pm to talk about our molding issues. Kyle will type up a list of questions and answers that he will give us over the weekend.

We set up a meeting with Russ for 3 o’clock on the 15th. This will be good to go over how we can make our latch and hinges.

Vinnie and Luke finished up their drawings which is awesome, so we can now make up some proto-types.

Louie Painted the Test Stands and made the other test stand more sturdy, and updated the website

Things to do
- Make Balsa wood test stand
- Get Drawings to Kyle Tomorrow
