**Problem:** Conference speakers exceeding allotted presentation time

**Solution:** Two sets of programmable two-terminal speaker timing systems

- Wireless communication between master and slave terminals
- Radio controlled time of day clocks for automatic synchronization
- LED lights for warning time indication
- Durable ABS plastic enclosures
- Lightweight and portable design
- 16-button keypad for programming
- Large Back-lit LCD for moderator
- Large 7-segment countdown display for speaker

**Team:** Tim Montoya, Frank Gonzales, Hugh Roberts, Jesse Rebeck

**Instructor:** Joe Law

**Sponsor:** Kelly Newell - WSU Center for Distance and Professional Education

**Advisors:** Brian Johnson, Dave Angell - Idaho Power
