July 2008 Meeting notes and Updates

July 7th

- Walk/ Don’t walk signals are received
- Nate Painted the Traffic signal case to match the yellow W/DW signals

July 18th

- Group Hardware meeting at Nate’s House
- Wired equipment together for a complete test run using only one button and one walk signal
  - Issue: MAN blinking during the flashing Hand cycle.

  To do:
  - Jack – Programming – make the hand blink not the man
  - Nate – create a wiring diagram of the current setup

July 25th

- Group work on DFMEA
  - Jack – SEL2411
  - Nate – Signal Lights
  - Gabe – Sensors

July 30th

- Wiring diagram is completed to fit current setup
